A MASTERPIECE

IN THE MAKING

Only the best of the best can bear the A.H. Beard Signature Collection. It represents over 120 years of bedmaking expertise, and is synonymous with premium quality Australian craftsmanship.

Our team of master craftsmen use long-forgotten techniques such as hand stitching and button tufting to craft each A.H. Beard Signature Collection mattress. It can take our highly skilled team up to 5 hours to hand stitch one mattress.

UNRIVALLED **SUPPORT**

Each spring is wrapped in its own calico pocket, then arranged by hand in a nested configuration. This leaves no gaps yet allows each spring to move independently and contour to the shape of your body. Individually encased springs also minimise motion transfer, promoting a more restful, undisturbed sleep.

Thousands of lightweight Titanium alloy springs adapt to your body's contours to relieve pressure and provide luxurious, cradling comfort.
