Wellness begins

HERE

Your bed is an investment in personal wellness.

A sanctuary of rest, recovery and rejuvenation.

It's where dreams are born.

And, with the right quality and quantity of sleep,
it's where dreams become possible.

Because when you sleep well regularly,
you are a better version of yourself.

Healthier, happier and more motivated.

Welcome to
the King Koil sleep wellness collection.

Brought to you by Australia's
master sleepsmith, A.H. Beard.

A family
owned
Australian
business

The 6 Essential Features of Premium Sleep

HANDCRAFTED INTO EVERY KING KOIL MATTRESS

As bedmakers with over a century of experience, we believe it comes down to these six essentials, which create the ideal conditions for healthy, restorative sleep.

What we at A.H. Beard call *premium sleep*.

1.

It just feels right

Even without sheets, a mattress should feel beautiful on your skin. King Koil's sensuous stretch knit fabrics and sumptuous comfort layers create a luxurious first impression that is repeated every time you go to bed.

2.

All-over comfort

As you recline, the AeroComfort layers gently conform to your body's curves, helping to relieve pressure, prevent discomfort and keep you relaxed from dusk till dawn.

3.

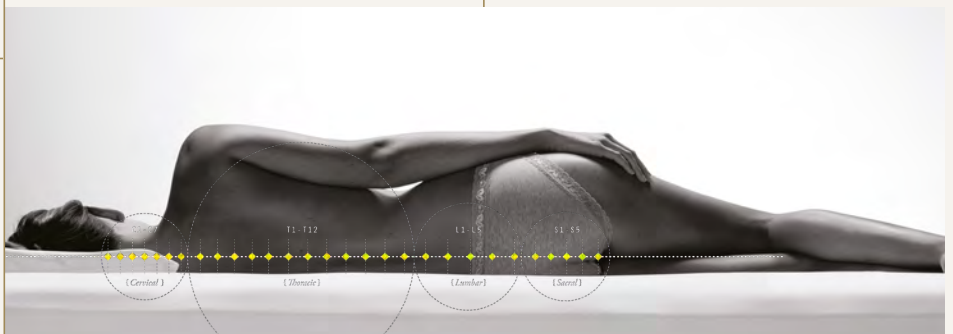

All-night support

While you sleep, King Koil's innovative Reflex support system gently conforms to your body's size and weight, providing individualised support. The only sleep support system recommended by the International Chiropractors Association, Reflex support helps you wake refreshed, rejuvenated and ready to live your best life.

5.

Don't be disturbed

The independently pocketed springs of the Reflex support system absorb the movements of others sharing your bed, helping to reduce partner disturbance and prevent premature waking.

4.

A healthy sleep environment

If you suffer from allergies or asthma, the Sensitive Choice blue butterfly is your assurance of long-term protection against mould, bacteria, dust mites and other allergens. You'll find it on every King Koil mattress.

6.

Temperature regulating

To keep you comfortable on warm nights, our craftsmen chose AeroQuilt, AeroWeb and AeroFoam+ components to encourage the flow of air and help disperse heat.

The King Koil Wellness Collection

FEATURING REFLEX SUPPORT
THAT'S ALL ABOUT YOU

PRIMARY COIL

REFLEX
SUPPORT SYSTEM

ACTIVE COIL

Reflex Support Technology

King Koil mattresses* featuring our innovative Reflex technology supports your body regardless of your size, shape or sleeping position. Reflex contains 690 primary coils for all over support and varying amounts of smaller active coils that provide additional support where you need it most. Perfect for couples, Reflex responds independently to each sleeper, so you both get the support you need without disturbing each other. King Koil mattresses with Reflex support technology are the only ones in Australia recommended by the International Chiropractors Association.

*Featured in models from Pursuit upwards

Performa Edge Support

To maximise the sleep area of your mattress, King Koil mattresses[^] feature Performa Edge Support. A high-density foam that encases the edges of your mattress, Performa Edge Support creates perimeter strength while still providing a comfortable sleep surface.

EvoFoam
Cleaner, greener, healthier comfort

EvoFoam Technology

You'll sleep better knowing the comfort foam in your mattress is made without potentially harmful chemical additives or CO² emissions. Manufactured using the world's most advanced foam-making technology, EvoFoam provides a cleaner and healthier sleep.

Sensitive Choice

Do you or your family members have asthma or allergies? Rest assured, every A.H. Beard mattress that carries the Sensitive Choice blue butterfly will provide long term protection against mould, bacteria, dust mites and other allergens, so you can breathe and rest easy.

DOMAYNE

Royal Luxury

The pinnacle of the King Koil Wellness Collection, each Royal Luxury mattress is hand tufted by our craftsmen, ensuring the components work in unison for maximum comfort, support and durability.

Comfort

A premium damask Tencel® fabric is hand tufted to a sumptuous layer of Alpaca and Wool fibre that creates a luxurious first impression. As you recline, AeroComfort elements and Comfort Coils conform to your body, forming a gentle cradle of sleep-inducing comfort.

Support

Once you are comfortably asleep, the Reflex Platinum VRS support system activates to support your body throughout the night. Primary coils and 345 active coils work in unison to provide the exact amount of support you need. And thanks to Performa Edge Support, you'll enjoy that support across your entire mattress.

Breathability

Your Royal Luxury mattress is designed for the healthiest kind of sleep. From the cooling damask Tencel® fabric to the naturally hypoallergenic and antimicrobial Talalay Latex Comfort Layer and temperature regulating Wool and Alpaca fibre, it's a mattress made with your wellbeing in mind.

Intimate Providence

Comfort

A stretch knit fabric of Tencel® combines with a silk fibre layer to create a surface that is soft, sensuous and cooling to the touch. As you recline, the AeroQuilt, AeroFoam+ and AeroWeb elements conform to your body to create a blissful, sleep-inducing embrace.

Support

As you drift into sleep, the Reflex Platinum Support System activates to support your body throughout the night. Primary coils and 345 active coils work in unison to provide the exact amount of support you need. And thanks to Performa Edge Support, you'll enjoy that support across your entire mattress.

Breathability

Your Intimate Providence mattress is designed for a healthy sleep environment. From the cooling Tencel® fabric to the naturally hypoallergenic and antimicrobial Gel-Infused Latex Comfort Layer and breathable pocket spring system, it's a mattress made with your wellbeing in mind.

Serendipity

Comfort

Serendipity's premium stretch knit fabric is woven with Tencel® for a soft and sensuous skin feel. A luxurious wool blend enveloping a comfort layer of Gel-infused Latex relieves pressure and naturally cools your body as it draws you into sleep.

Support

Once asleep, Serendipity's Reflex Max support system helps keep you asleep. Reflex Max features Variable Response Spring (VRS) technology, which conforms to your shape, assisted by primary and 215 active coils that combine to support you wherever you need it most.

Breathability

Our AeroComfort technology provides breathable comfort, while the stretch knit Tencel® fabric naturally wicks away moisture for easier sleep on warm nights. Serendipity's hypoallergenic and antimicrobial qualities create a healthy sleep environment.

Complement your A.H. Beard King Koil mattress.

Need a bed for your head?

Pillows are an integral part of any sleep system, working together with your mattress to deliver a better night's sleep. A good-quality pillow will support your head and neck while you sleep, enhancing your overall comfort so you wake up rejuvenated.

Adjust your comfort

An adjustable base features parts that can be raised or lowered independently for optimum comfort. For example, if you want to raise your legs to ease lower back pain, the lower section of the bed can be raised. Or if you want to sit up straight to read a book, you can choose to raise the top section while leaving the lower section flat.

Smart thinking while you sleep

Not sure how much quality sleep you're getting? Monitor, track and analyse your sleep patterns with our innovative Smart Sleep Solutions tracking devices. They'll help you get more from your sleep, so you can make the most of your day.

Recommended by chiropractors

SINCE 1980

When A.H. Beard introduced King Koil in 1980, they were the first chiropractic-approved mattresses in Australia. To this day, King Koil remains the only Australian mattress collection recommended by the International Chiropractors Association. Craftsman made in Australia, they are as good for Australian jobs and communities as they are for your sleep and wellbeing.
